## Change Log for iDC File Manager Version 1.5

### Change Log

Beta 1.5.01a - TESTING

Fixed: Issue in which the Flash upload function fails to upload to Shared folders if the user account does not have "Upload" enabled.

Fixed: Shared Folder rename issue

Added: Shared Folder Disk Quotas

Fixed: Hotlink PDF issue.

Changed: Display of Groups on New User and Edit User screens

Changed Display of Shared folders in the Move / Copy screens

4th April 2010 - Version 1.5.01 Released

Fixed: Log Viewer ignoring number of listings per page and error with Next | Previous buttons bugs

Fixed: Sort option bug on List Groups and List Shared Folders page

Fixed: A-Z | Z-A sort option bug in File Manager interface

Fixed: kB & Mb file size bug

Fixed: File size identifiers to correctly shows size as Kilobytes and Megabytes and not Kilobits and Megabits.

Fixed: Shared folder active link bug

Fixed: Admin account accessing Shared folders now has full array of functions

Fixed: exe=>'attachment', in Manager.pm script.

Fixed: Changed notes function so that description does not change when notes are added

Fixed: Issue which returned Malformed UTF-8 character warning

Fixed: Move and Copy sub-folder display bug

Fixed: Missing "lib" path in AccountCreation.pl script.

Fixed: Translation issue where post code / zip was confused with batch download option

Fixed: Hotlinking of files which contain umlauts and special characters

Fixed: Alignment of file sizes in the Size column

Fixed: Password fields now masked to cloak the typed text

Changed: Useractivity log to csv file

Added: Option to specify User account folder

Added: Option to set User Account to expire in 30/60/90 days and then re-set to give another 30/60/90 access but with a new password.

Added: Option to specify a password and expiry time frame (in days) for Hotlinks.

Added: Log entry for Invalid login attempts

Added: Log results per page option

Added: Upload location in Upload Email template

Added: New MP3 player for MP3's (further development work still scheduled for this function)

Added: Email Authentication options for Windows servers

28th June 2009 - Version 1.5.00 Released
